

Gotion High Tech is a publicly traded international organization with a diverse board of executive directors including citizens of Germany, USA and China. Within the Gotion Inc north America organization, who is responsible for big rapids, Michigan plant ownership, there is no CCP organization influence. No person on the leadership team is a CCP member. There is no CCP organization or influence to the NA operation. There is not a slim chance of influence of any political party to Gotion inc while we follow regional and federal regulations and requirements within all of our North America facilities that are in operation since 2015. GOTION INC has current operations in California and Ohio servicing NA customers and is on contract with the Department of Energy USABC to assist establishment of NA battery standards

Chuck Thelen
